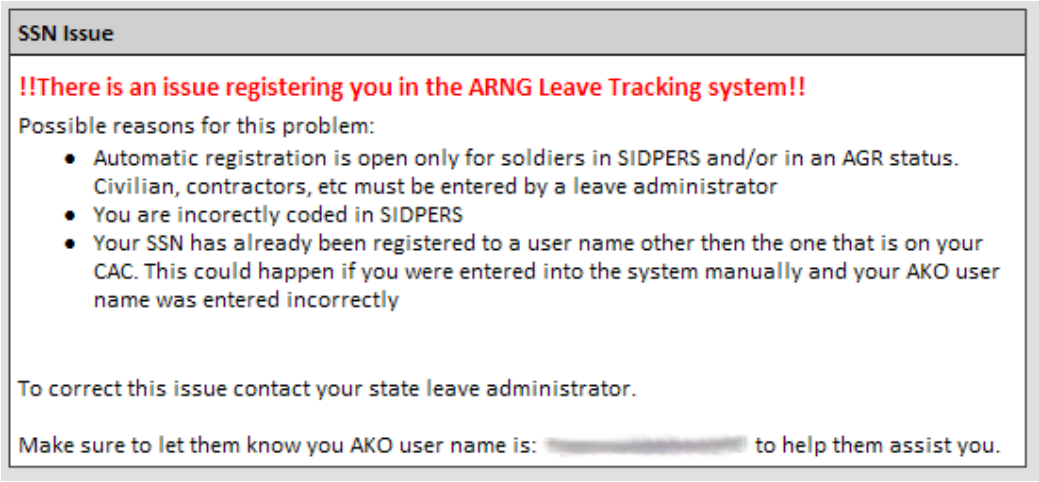
Why Do I See This Screen?



SSN Issue

!!There is an issue registering you in the ARNG Leave Tracking system!!

Possible reasons for this problem:

- Automatic registration is open only for soldiers in SIDPERS and/or in an AGR status. Civilian, contractors, etc must be entered by a leave administrator
- You are incorectly coded in SIDPERS
- Your SSN has already been registered to a user name other then the one that is on your CAC. This could happen if you were entered into the system manually and your AKO user name was entered incorrectly

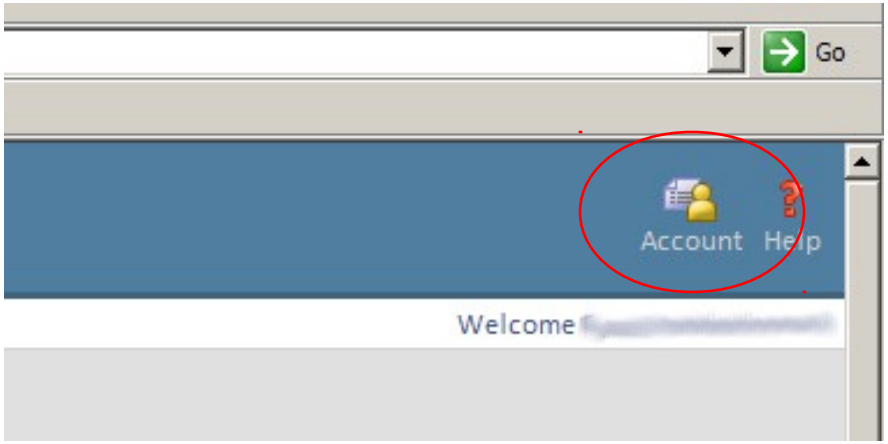
To correct this issue contact your state leave administrator.

Make sure to let them know you AKO user name is: [redacted] to help them assist you.

As explained by the form, self-registration is only open to soldiers who are in SIDPERS.

- If you are a civilian or contractor and you'd like to register as a supervisor contact your state's leave administrator. They can add you into the system
- You may have already been added to the system, but the person who entered you could have typed in your SSN or AKO user name incorrectly. Contact your state leave administrator so they can check your account
- It is possible that your pay or personnel record could be incorrect. Your state's HRO should be able to correct this for you.
- If all else fails contact the POC on the last slide of this presentation.

Making Changes to Your Account



Click the “Account” link at the top right of the page

Making Changes to Your Account
